## Polyester CUBE Filters

- Cost Effective
- High Performance
- Solid Construction

### Applications:

- ▶ Paint overspray
- ▶ Dust collection
- ▶ Oil mist collection
- ▶ HVAC Pre-filtration
- ▶ HVAC Final filtration

### Options:

- ▶ One, two or three pocket design
- ▶ Multiple media combinations
- ▶ Various sizes and depths available

### Additional Information:

Up to five times the filter area of a flat panel filter of the same face dimensions - this means longer service life and less maintenance time.

Self sealing support from two heavy gauge wires withstands warping from heavy loading and "aggressive" installation.

Polyester overlap around the edges inhibits dust and paint bypass.

Available in many media configurations for use in particulate and paint overspray collection. Aerospace systems are also available.

Prices and specifications are subject to change without notice. All sales are made subject to the terms and conditions contained in the Filtera, Statement of Business Policy, as revised from time to time, a current copy of which is available upon request.
