

## Mini Pleat V-Cell

### Choose From Four Efficiencies:

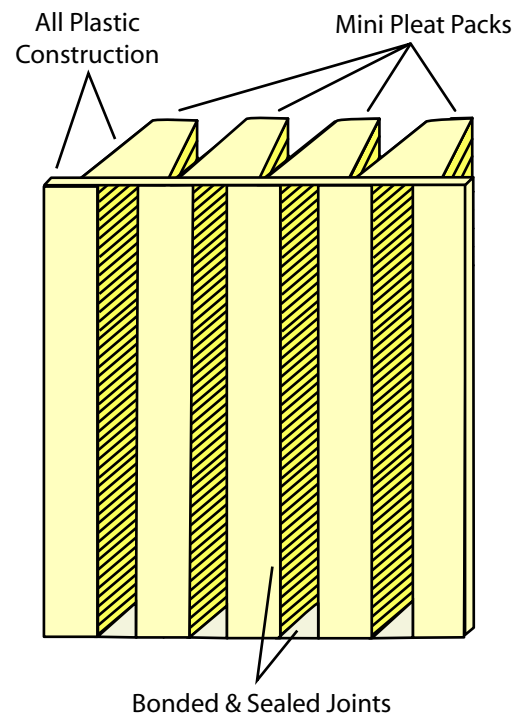

- **MERV 15**
- **MERV 14**
- **MERV 13**
- **MERV 11**

### Product Description

The Mini Pleat V-Cell incorporates 150 square feet of media in a 24x24x12 filter. This tremendous amount of media allows for lower pressure drops, longer service life, and high efficiency.

The entire frame, media, and media separators are constructed of plastic making the V-Cell resistant to moisture damage. High blowout resistance makes this an optimal choice for high air velocity applications.

### Space Age Design With Durable Moisture Resistant Materials

Prices and specifications are subject to change without notice. All sales are made subject to the terms and conditions contained in the Filtera, Statement of Business Policy, as revised from time to time, a current copy of which is available upon request.
